Hi Ananthan,

I'm told there was \$946,300 identified for this project that has not gone out. Since we have the funds here, would you like to flow the funds out this fiscal as FLEX? They would have to complete the project by the end of next year.

Thanks
Jonathan

Hi Ananthan,

This project is on the NTCF list for an additional \$275,000 for construction. It looks like we've funded design previously but it's listed as a NoBA. Should I have this changed to an amendment and if so, what would you like for reporting?

thanks

Hi Ananthan,

Heather asked us to update her regarding the FNIF budgets. Before I check with the Band, just wanted to see if you knew.

It looks like HQ has approved \$1,221,300 which has not been released for the construction phase. In GCIMS it looks like we aren't expecting the design to be completed until the end of March.

Would you expect the band will require these funds this fiscal year? Or should I let Heather know they won't be needed until next year?

thanks
Jonathan

Hi Ananthan,

I would like to follow up with you on the Biomass Heating System for the Esk'etemc First Nation. Last time we spoke, you have mentioned probably to have an answer by the next Banking Day in June 2017, how and when we can proceed with the project. Could you please let me know next week what the outcome is on the review of the Feasibility Study / Summary Findings?

Thanks

Hi Ananthan, here is the email I sent earlier in November Key summary

- o Likely \$275,000 required from PAR funding (\$300,000 if rounding up)
- o As early as early March

Going to try and connect with you today, if not successful please call me on Monday We are assembling the RFP and want to discuss a few questions about INAC expectations and or templates

Subject Esk'etemc District Heat - Funding Requirement 2018

Hi Ananthan, thanks for the discussion last week

Here is a summary and hopefully supplies the information you wanted

Here is the plan as it stands today

- We are expecting to receive bids in early January, modify design if needed and then complete the bid review with Esk'etemc By the end of January
 - o At that point supplier and package will be selected
- Supplier will then be given the approval to start the detailed design
 - o Funding included in the DAR funding
- Beginning February we will put together the PAR application and submit it to INAC for mid February review
 - o As an aside I would like to discuss with you requirements for the PAR application
- Once funding is approved by INAC we would like to notify the selected supplier, sign the PO / contract and have them commence fabrication of the equipment
- At that time I am expecting them to request a down payment of roughly 25%
 - o This will be roughly \$275,000 and required to be paid out of PAR funding
 - o We would like to pay that to the vendor in early March, this is required to maintain the schedule as planned

Let me know if you need any other information,
